EDUCATION

M. H. Saboo Siddik College Of Engineering

B.E. in Information Technology, CGPA: 8.36

Mumbai, MH

May 2024

PROJECTS

Camporia | *React* | [Link](#)

March 2025

- A front-end booking platform for exploring campsites, allowing users to search by campsite name and price, with routing.
- Integrated login and sign-up form validation to ensure proper email formats and prevent empty passwords, with authentication planned for future implementation
- Engineered a responsive front-end interface using react, improving user engagement by streamlining navigation across 4+ sub-pages and enhancing overall usability and Search Engine Optimization.

Portfolio | *React* | [Link](#)

August 2024

- Designed an engaging project showcase with a JSX-powered bento grid, blending simplicity with interactivity
- Implemented a sleek light/dark theme switcher using React Hooks, offering users a tailored experience
- Enhanced responsiveness with CSS breakpoints, interactive animations, and a handy scroll-to-top feature powered by JavaScript
- Crafted a responsive navbar using HTML/CSS and React that effortlessly guides users through sections, ensuring smooth navigation

EXPERIENCE

Web Developer Intern

April 2025 (2mo Present)

Rabs Net Solutions Pvt. Ltd.

Jogeshwari, Mumbai

- Built and maintained user interfaces for CRM and ERP systems using React, focusing on layout structure, state management, and component reusability.
- Contributed to four client projects by implementing frontend changes, integrating APIs, and resolving bugs as per real-time feedback.
- Worked closely with the backend team to connect UI components with Express and SQL-based services, ensuring consistent data flow and functionality.
- Participated in design adjustments, feature updates, and testing, gradually shifting into mobile development with React Native for ongoing app projects.

UI/UX Designer Intern

August 2024 (1mo)

Duhzine IT Solutions Pvt. Ltd.

Remote

- Designed wire-frames and prototypes for 4 projects contributing to improved usability and accessibility across 10+ user scenarios
- Created intuitive and responsive designs for projects, ensuring a seamless user experience across various devices and optimizing navigation for users
- Enhanced collaboration by providing well-documented design specifications, reducing front-end developer queries by approximately 20 percent during implementation
